Work Experience

SDE-1

Lynkit Private Solutions | New Delhi

03/2023

I have been entrusted with the creation and design of responsive web applications utilizing a suite of modern technologies including Angular, React, HTML, CSS, Sass, and Bootstrap.

Project Contributions:

Lynkit.io (Transport Management System):

- ▶ Developed an OCR module to extract data from invoices for duplicate generation.
- ▶ Built a dynamic, configuration-driven user management system.
- ▶ Created an RFQ(Request for quotation) module for smooth vendor booking.

Lynkgrid (Terminal Automation Platform):

- ▶ Integrated Google Maps for geofencing shipyards.
- ▶ Utilized RFID-equipped devices on cranes for precise container tracking across ports and terminals.

Product Engineer

Intellect Design Arena | Mumbai

06/2022 - 01/2023

Projects Worked On:

- ▶ VAM (Virtual Account Management) & Liquidity Management:

Developed and updated UI for corporate banking solutions using Angular. Performed UI and functional testing, ensuring smooth Treasury Management processes.

Designed Treasury management Dashboard for data analytics.
